

Astrologer Offers Feature – Flow & Edge Cases

1. Feature Purpose

Astrologers can offer discounts to attract new users and encourage existing users to start another session.

There will be **4 offer types**:

1. **20% OFF**
2. **50% OFF**
3. **75% OFF**
4. **Price Increase Offer**

2. Percentage-Based Offers

Astrologers can manually turn ON any of the following offers:

- 20% OFF
- 50% OFF
- 75% OFF

Minimum Display Price Rule

After applying the discount, the final price shown to the user **must not be below ₹10**.

Offer	Minimum Astrologer Price
20% OFF	₹13
50% OFF	₹20
75% OFF	₹40

Example – 50% OFF

None

Astrologer Price = ₹20

50% OFF

User Pays = ₹10

Example – 75% OFF

None

Astrologer Price = ₹40

75% OFF

User Pays = ₹10

If the discounted price goes below ₹10, the Astrologer **cannot activate that offer**.

3. Loyal User Definition

A user becomes a **Loyal User for a particular Astrologer** when they have completed **more than 15 minutes** of conversation with that Astrologer.

None

User + Astrologer

Session > 15 Minutes

User becomes

Loyal User for that Astrologer

The loyalty status is **Astrologer-specific**.

For example:

- User A talks to Astrologer X for more than 15 minutes → Loyal User for Astrologer X.
 - This does not automatically make User A a Loyal User for Astrologer Y.
-

4. Discount for Loyal Users

A Loyal User will receive **50% of the original discount**.

Astrologer Offer	Loyal User Offer
20% OFF	10% OFF
50% OFF	25% OFF
75% OFF	37.5% OFF

Example

If the Astrologer has activated **50% OFF**:

- New/Normal User → **50% OFF**
 - Loyal User → **25% OFF**
-

5. Important H Case – User Becomes Loyal During the Session

This is the key edge case.

Example

Astrologer has activated:

50% OFF

The user starts a session and receives:

50% OFF

The session continues and the user crosses the **15-minute threshold**.

The user now becomes a Loyal User.

However, **the offer will NOT change during the ongoing session**.

Flow

None

Session Starts

User gets 50% OFF

15+ Minutes Completed

User becomes Loyal User

Current Session

50% OFF continues

Session Ends

Next Session

User gets 25% OFF

Core Rule

The offer applicable at the start of a session will remain locked for that session.

If the user becomes a Loyal User during the session, the reduced Loyal User offer will apply **only from the next session onwards**.

6. Edge Cases – Percentage Offers

Edge Case	Expected Behaviour
E1 – Normal User + 20% OFF	User gets 20% OFF.
E2 – Normal User + 50% OFF	User gets 50% OFF.
E3 – Normal User + 75% OFF	User gets 75% OFF.
E4 – Loyal User + 20% OFF	User gets 10% OFF.

E5 – Loyal User + 50% OFF	User gets 25% OFF.
E6 – Loyal User + 75% OFF	User gets 37.5% OFF.
E7 – Exactly 15 Minutes	User does not become Loyal User if the rule is strictly "more than 15 minutes."
E8 – More Than 15 Minutes	User becomes a Loyal User for that Astrologer.
E9 – Loyalty During Active Session	Current session continues with the same offer.
E10 – Next Session After Loyalty	Reduced Loyal User offer applies.
E11 – Discounted Price Below ₹10	Astrologer cannot activate the offer.
E12 – Offer Turned OFF	Offer becomes inactive for new sessions.
E13 – Existing Loyal User	User gets the reduced offer from the beginning of the session.
E14 – New User	User gets the full selected offer until they become a Loyal User.

7. Price Increase Offer

The **Price Increase Offer** is different from the percentage-based offers.

When an Astrologer becomes eligible for a price increase and increases their consultation price, the **Price Increase Offer will automatically activate**.

The Astrologer will **not manually turn ON** this offer.

Example

Current price:

₹20/min

New price:

₹25/min

Instead of immediately charging ₹25, the user will see:

None

₹25/min

₹20/min for 30 Days

This communicates that the Astrologer's new price is ₹25, but the user is getting a **30-day promotional price of ₹20**.

8. Price Increase Offer Flow

None

Astrologer Eligible for Price Increase

Price ₹20 → ₹25

Price Increase Offer AUTO-ON

User sees ₹25 → ₹20

30 Days

Offer Automatically Ends

New Price = ₹25

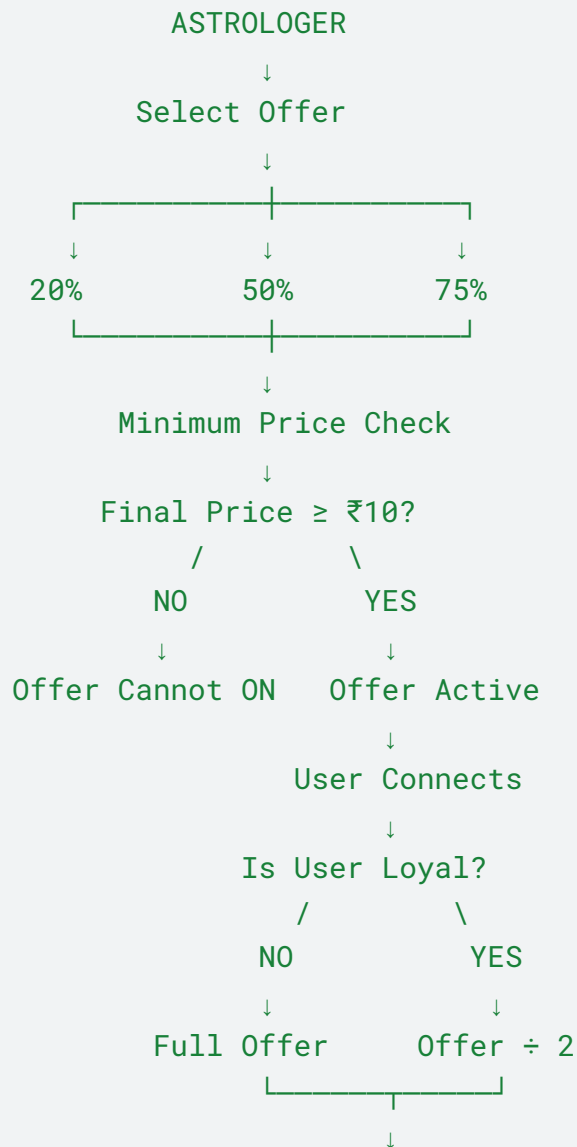

9. Price Increase Offer – Edge Cases

H Case	Expected Behaviour
E15 – Price Increase	Price Increase Offer automatically activates when the price is increased.
E16 – Manual Activation	Astrologer cannot manually activate this offer.
E17 – 30 Days Completed	Offer automatically expires after 30 days.
E18 – Offer Active	User continues to receive the promotional/old price during the offer period.

E19 – Offer Ends	User is charged the new price after the offer expires.
E20 – Astrologer Manually Turns OFF	If manual OFF is allowed, the promotional price ends immediately.
E21 – New User During Offer Period	New user gets the applicable promotional price.
E22 – Loyal User During Offer Period	Loyal-user pricing rules should be applied separately if loyalty discount is also active.

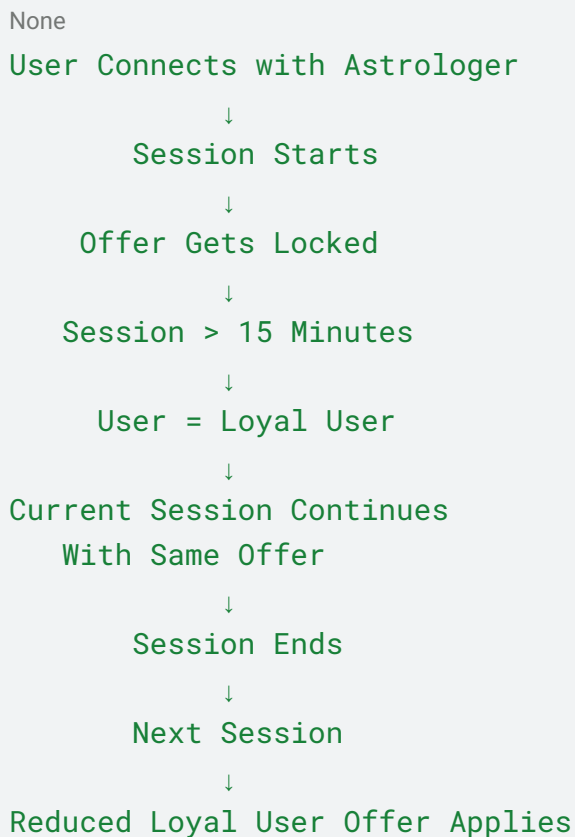

10. Complete Percentage Offer Flow

None

11. Complete Loyal User Flow

12. Final Product Rules

1. Astrologers can manually activate **20%, 50%, or 75% OFF**.

2. The discounted final price must be **at least ₹10**.
3. A user becomes a Loyal User after **more than 15 minutes** with the same Astrologer.
4. Loyalty is **Astrologer-specific**.
5. Loyal Users receive **50% of the original discount**:
 - 20% → 10%
 - 50% → 25%
 - 75% → 37.5%
6. The offer applicable at **session start is locked for the entire session**.
7. If a user becomes Loyal during an ongoing session, the current session's offer **does not change**.
8. The reduced Loyal User offer applies **from the next session**.
9. Price Increase Offer is **automatically activated** when the Astrologer increases their price.
10. Price Increase Offer is valid for **30 days**.
11. After 30 days, the Price Increase Offer automatically expires and the **new price becomes applicable**.
12. Percentage Offers and Price Increase Offers should be treated as **separate offer mechanisms**.
